

Lund ([www.lund.se/english](http://www.lund.se/english)) is situated in the middle of the attractive and expansive Øresund region ([www.oresundregion.org](http://www.oresundregion.org)). It is one of the oldest cities in Sweden, with a history more than 1000 years old, and has always been a meeting place for ideas and creativity. In Lund you will find the charm of a small town, side by side with the enticements and comfort of a major city, and offers classical museums, art galleries and other sights. Theatres, music and lectures, inviting restaurants and cafés can all be found within walking distance in Lund's city centre.

Lund University ([www.lu.se](http://www.lu.se)) was founded in 1666. With eight faculties and a multitude of research centres and specialized institutes, it is today the largest unit for research and higher education in Sweden.

#### TRAVEL INFORMATION

Copenhagen airport (CPH) in Denmark is the closest major international airport with frequent train services to Lund via Malmö. The journey takes about 45 minutes and the trains depart from the airport every 20 minutes. The conference site is within walking distance of Lund railway station. The local Malmö airport (MMX) with a few international flights is about 35 minutes taxi or bus ride away from Lund.

## 4th EUROPEAN CONFERENCE ON NEUTRON SCATTERING

25-29 June 2007

Lund, Sweden

[www.ecns2007.org](http://www.ecns2007.org)

organised by

**European Neutron Scattering Association**

Swedish Neutron Scattering Society  
 Norwegian Neutron Scattering Association  
 Danish Neutron Scattering Society

and

LUND UNIVERSITY

ECNS-2007, the 4<sup>th</sup> European Conference on Neutron Scattering, will be held in Lund, Sweden from 25<sup>th</sup> to 29<sup>th</sup> June 2007. This meeting is organised on behalf of the European Neutron Scattering Association (ENSA) by: Danish Neutron Scattering Society, Norwegian Neutron Scattering Association, Swedish Neutron Scattering Society and Lund University

**Neutron scattering** brings together many scientific disciplines. Traditional areas of application have broadened and strong activity is now seen in diverse fields such as biology, nanoscience, environmental science and engineering.

ECNS-2007 continues the successful series of meetings that have been held in:

- Interlaken 1996
- Budapest 1999
- Montpellier 2003

In the tradition of these conferences all aspects of the technique and the application of neutron scattering will be discussed. Themes to be covered include:

- Advanced Neutron Sources
- Neutron Instrumentation and Techniques
- Neutron optics and Fundamental physics
- Crystallography, Spectroscopy and Excitations
- Magnetism and Superconductivity
- Earth Sciences
- Thin Films and Interfaces
- Glasses and Liquids
- Soft Condensed Matter – Colloids and Polymers
- Life Sciences
- Archaeology and Heritage
- Industrial and Medical Science Applications e.g. Radiography, Process Studies and Strain

The conference is planned for broad participation: users of neutron techniques and developers of neutron instruments and facilities will both be strongly represented. Potential and new users of neutrons can learn about techniques and facilities while established users can hear about new applications.

### CONFERENCE SITE

The conference site is at Universitetsplatsen in the very centre of Lund, Sweden, with registration in the University Main building and lectures in Akademiska Föreningen (The Student Union building) and Palestra.

The organisers look forward to welcoming you in Lund in June 2007.

### INTERNATIONAL ADVISORY COMMITTEE

Victor Aksenov, Dubna, Russia  
Peter Allenspach, Villigen, Switzerland  
Lars Börjesson, Gothenburg, Sweden  
Yvonne Brandt Andersson, Uppsala, Sweden  
Thomas Brückel, Jülich, Germany  
Colin Carlile, Grenoble, France  
Antonio Deriu, Parma, Italy  
Jose Gomez Sal, Santander, Spain  
Ion Ionita, Pitesti, Romania  
Kenneth Knudsen, Kjeller, Norway  
Dominique Langevin, Orsay, France  
Bente Lebech, Copenhagen, Denmark  
Françoise Leclercq-Hugoux, Lille, France  
Philippe Mangin, Saclay, France  
Keith McEwen, London, UK  
Pavol Mikula, Rez near Prague, Czech Republic  
Kell Mortensen, Roskilde, Denmark  
Winfried Petry, Garching, Germany  
Helmut Rauch, Vienna, Austria  
Laszlo Rosta, Budapest Hungary  
Erich Sackmann, Munich, Germany  
Michael Steiner, Berlin, Germany  
Andrzej Szytula, Cracow, Poland  
Andrew Taylor, Didcot, UK  
Ad van Well, Delft, The Netherlands

### PROGRAMME COMMITTEE

Hannu Mutka, Grenoble, France  
(*Chairman of Committee and ENSA*)  
Arantxa Arbe, San Sebastian, Spain  
Valeria Arrighi, Edinburgh, UK  
Jacqui Cole, Cambridge, UK  
Giovanna Fragneto, Grenoble, France  
Bjorn Hauback, Kjeller, Norway  
Des McMorrow, London, UK  
Feri Mezei, Berlin, Germany  
Kell Mortensen, Roskilde, Denmark  
Tommy Nylander, Lund, Sweden  
Ulf Olsson, Lund, Sweden  
Adrian Rennie, Uppsala, Sweden

### LOCAL ORGANISING COMMITTEE

Adrian Rennie, Dept of Physics, Uppsala University, Sweden (*Chairman*)  
Kell Mortensen, Risø National Laboratory, Roskilde, Denmark  
Ulf Olsson, Physical Chemistry 1, Lund University, Sweden  
Tommy Nylander, Physical Chemistry 1, Lund University, Sweden
