

# 4<sup>TH</sup> EUROPEAN CONFERENCE ON NEUTRON SCATTERING

25-29 June 2007  
Lund, Sweden

Neutron scattering brings together many scientific disciplines. Traditional applications have broadened and strong activity is now seen in diverse fields that include biology, nanomaterials, environmental science and engineering.

The conference is planned for broad participation: potential and new users of neutrons can learn about techniques and facilities while established users will hear about new applications.

The plenary speakers include:

*Robert Thomas*, Oxford, UK (Interfaces), *Björgvin Hjörvarsson*, Uppsala, Sweden (Thin Film and Nanomagnetism), *Klaus Yvon*, Geneva, Switzerland (Materials Chemistry), *Thomas Keller*, Stuttgart, Germany (Excitations and Inelastic Scattering), *Arantxa Arbe*, San Sebastian, Spain (Dynamics of Soft matter), *Christian Ruegg*, London, UK (Magnetism), *Piero Baglioni*, Florence, Italy (Materials for Conservation of Cultural Heritage), *Hanna Wacklin*, Lucas Heights, Australia (Biomembranes)

The ENSA Walter Hälg Prize and the ECA/ENSA Lewy-Bertaut Prize will be presented.

**On-line registration and hotel booking before 28 May 2007 and abstract submission before 5 February is on the conference home page [www.ecns2007.org](http://www.ecns2007.org)**

Lower conference fee is offered for registrations before 30 March 2007. Questions about the scientific programme to [info@ecns2007.org](mailto:info@ecns2007.org) and registration to [asa@konferens.se](mailto:asa@konferens.se)

Organised by

Swedish Neutron Scattering Society, Norwegian Neutron Scattering Association, Danish Neutron Scattering Society & Lund University.
